

# Technical Data Sheet

## TKV TANK VALVE ASSEMBLY

Hydreco's TKV units are an electric tipping tank and valve assembly designed for use on vehicles without air systems. The Tank Valve units are available in 12V and 24V versions.

All units include the Electric Tipping Valve with an adjustable relief, the heavy-duty coils are ready to be wired up to an electric tipper control.

Our tanks come complete ready to bolt on to your truck's chassis.
